

Infrastructure

Building

Infrastructure and facilities are the strengths of our group of institutions and KRCT is in par with excellence in infrastructure and amenities. The five floored blocks of our college are the substantiation. The circuit block is facilitated with five floors where we have labs and classrooms for the IT oriented and circuit based subjects and the administrative block is accomplished with six floors where administrative sections and non-circuit based classes like Civil and Mechanical and their labs are facilitated.

The college classrooms are spacious and well-equipped with LCD and OHP projectors. We have five conference Halls where more than five hundred students can be accommodated for various seminars and symposiums purpose.

Laboratories

We have established 52 laboratories with norms and standards prescribed by the Anna University & AICTE. The college has Research and Development Centre such as Research and Innovation center for Power Electronics (RIPE) Laboratory, Innovation Center (3D Printing Lab) , Center for Research in Welding, Center for Excellence in Modeling and Simulation by PTC, Center for Excellence in Automobile, Intel Intelligent systems lab, eYANTRA Robotics Lab, National Instruments Lab, IoT(PTC) & Oracle Lab, Non Destructive Testing(NDT) Lab, All labs are outfitted with advanced, sophisticated instruments.

Library

Our college has RFID (radio frequency) enabled library accomplished with a large collections of books and journals. We have 26359 volumes of books on engineering and science and humanities. There are 76 national journals, 67 international journals, 2 magazines and 1575 CDs on various subjects. In addition to this, our library is equipped with 5,480 e-journals of Springer, IEEE ASPL. This library functions post-college hours and on holidays for the benefit and reference of the students especially those who are in the hostel.

Internet

Our college has a well-furnished Internet lab with 1275 computers and 500 Mbps OFC Internet connectivity to fulfill the requirements of both the faculty members and students.

Hostel

A well furnished hostel blocks for boys and girls have been constructed and the students are accommodated with necessary facilities like R.O. plant for pure drinking water and WI-FI internet connectivity is enabled inside the hostel for the students to work even at night.

Academics

Admission

Our institution offers 7 Under Graduate courses in engineering as Electrical Communication Engineering (ECE), Computer Science and Engineering (CSE), Artificial Intelligence and Data Science (AIDS), Artificial Intelligence and Machine Learning(AIML)Electrical and Electronics Engineering (EEE), Mechanical Engineering, and Civil Engineering and 4 Post Graduate courses in Engineering as M.E. Computer Science and

Engineering, Embedded System, Power Electronics and Drives and VLSI design. The total sanctioned intake for BE is 120 and for ME it is 24 in each branch.

Faculty

An enthusiastic team of faculty always takes any organization to acquire the accomplishments and the team of 169 faculty members and 71 non-teaching staff as the rudiments of all our success and let me applaud our team for all upbeating endeavors.

University Results

I am delighted to bring forth to you the details of the excellent performance of KRCT in the Anna University Examinations. Our results stand as the hall mark of our success. In the last academic year, our college achieved many state ranks in the Anna University examinations. In the November-December 2020 University exams, our pass percentage is 82%.

Club Activities

Clubs play a crucial role in enhancing communication skills, behavioral skills and personality in students and by introducing innovative and thought provoking activities. We impart good learning in our students and we shape them to face the corporate with great confidence and positive outlook. We have 5 active clubs in our college so as to enhance the EQ and IQ of our students.
