

Best Practices 01

1. Title of the Practice: Chart Presentation

2. Objectives of the Practice:

- To built leadership and team actives
- Improve communication skill
- Development of soft skills ok the students

3. The Context: Its an activity given to the students to collect the material and ask them to present. They will enjoy the activity and keep the content remembered, as a part of that i have initiated this activity to our students.

4. The Practice: Students are asked to split as a team and each batch is assigned with a topic. Students have to prepare the chart which can elaborate the content given in a simple manner. Here the creativity level of the students will increase a lot with respect to presentation and as well in the subject content.

5. Obstacles Faced: Sometimes students' communication is less, that time we make the students to support to talk in English

6. The Impact of The Practice: Students can be able to prepare the material on their own. they can be able to face the external members and elaborate the material that he has prepared for the delivery. It's a team building activity, so that students can be able to equip their leadership quality and learn how to provide opportunity to their team members.

Best Practices 02

1. Title of the Practice: Critical Thinking - Group Discussion

2. Objectives of the Practice:

- Improves communication skills.
- Improves social skills.

3. The Context: To Improve problem solving skills

4. The Practice: Students are given a handout with multiple problems and they are asked to apply what they learned in the lecture to solve the problems in groups. They are asked to discuss it together and come up with a single solution that all members agree on.

5. Obstacles Faced: Must make students think the solution for the problem on their own without referring to the internet.

6. The Impact of The Practice: Improves critical thinking and will boost the three dimensional thinking of a problem to rectify a best solution.
